2008- Present

CF EVANS CONSTRUCTION

Protecting the Details Behind the Project

As Director of Administration, Janet leads the administrative organization that supports every CF Evans project from Preconstruction through Closeout, driving consistent processes, keeping subcontractors compliant, and managing risk around contract requirements. She partners closely with the Operations and Preconstruction teams to keep projects aligned at every stage, and with the company's legal and insurance functions to protect the details that keep a project clean from startup through final closeout.

On Your Project, Janet:

- Keeps project operations running to a consistent, current standard
- Manages subcontractor compliance and contract-requirement risk
- Aligns administration with the Operations and Preconstruction teams at every phase
- Supports accurate contracts, records, and closeout documentation

Market Experience | 5,000+ Units

Affordable Housing · CCRC · Commercial · Industrial · Medical · Multifamily · Religious · Renovations · Senior Living · Special Needs Housing · Student/Campus Housing

My Promise: *"I will help make sure the details behind your project are managed with the same discipline as the construction itself."*
