CF EVANS TENURE

2023-Present

CF EVANS CONSTRUCTION

Protecting People

As Safety Manager II, Reed develops and implements CF Evans' corporate EHS program along with the site-specific safety plans that protect everyone on each jobsite. Safety here is not a program pulled off the shelf; it is part of how a project is planned and executed. A former Registered Forester and Certified Arborist, Reed brings a high level of preparation, attention to detail, and accountability, working to identify issues early, help the field find practical solutions, and make sure safety expectations carry through from written policy to what actually happens on site.

On Your Project, Reed:

- Develops and implements the corporate EHS program and each project's site-specific safety plan
- Emphasizes employee and subcontractor pre-task planning and OSHA compliance
- Conducts frequent jobsite inspections and takes immediate corrective action where hazards may appear

Project Examples:

- Evado @ Nexton- Charleston, SC | 309 Units
- Founders Yard- Charleston, SC | 341 Units
- Nexton 1 - Charleston, SC | 331 Units
- Goddard Point Hope - Charleston, SC | 227 Units

My Promise: "We will never knowingly sacrifice people's safety for production."
