CF EVANS TENURE

2026 - Present

Rick Stewart is a Project Superintendent with over 12 years of construction experience specializing in multifamily developments. He has successfully managed wood-frame, podium, precast, and concrete projects from site development through final turnover. He is experienced in coordinating trade partners, maintaining project schedules, enforcing safety standards, and delivering high-quality projects. He takes pride in building strong relationships with owners, architects, engineers, subcontractors, and local inspectors, fostering collaboration that helps resolve challenges efficiently and keep projects moving forward. Rick is committed to leading with integrity, accountability, and a focus on safety, quality, and teamwork.
