CF EVANS CONSTRUCTION

Your Builder in the Field

As Senior Superintendent, JJ is responsible for turning the plans, schedule, and commitments into a finished building, giving clients a leader in the field focused on safe execution, quality construction, workflow, and maintaining the schedule. With 16 years in grading and 11 years in multifamily, JJ leads projects from the ground up. He is known for adapting quickly to change, solving problems on site, and developing assistant superintendents into future field leaders.

On Your Project, JJ:

- Coordinates trade partners, inspections, logistics, and sequencing every day
- Manages safety, quality, and production in the field
- Plans upcoming work so each phase is ready before it starts
- Looks ahead, because today's field decision can affect the project weeks or months from now
